

AquariumActiv

Comprehensive care for your aquarium

LIVING WATER

Passionate all-round care

Our 360° approach

Excellent water quality is key to getting the most enjoyment out of every part of the underwater world. Tapping into this enjoyment means testing, cleaning, treating, enriching and maintaining the water. The OASE care series for aquariums gives you peace of mind in knowing that you have thought of everything.

The aquarium care product range is a 360° approach, which covers the most important application areas. All products combine with each other perfectly, enabling high-quality and targeted aquarium care.

Our premium aquarium care products round off the OASE range and offer you a complete set of care products for your underwater world.

AquariumActiv

Areas of application

IMPROVE WATER QUALITY

With innovative water purifiers, our products gently treat tap water for aquarium inhabitants.

ADD BACTERIA

To promote the active self-cleaning of the aquarium, we offer bacteria that we have bred ourselves. This is how we keep the aquarium water in balance.

BIND NUTRIENTS

For stable water parameters, OASE offers clever solutions to prevent outbreaks of algae and avoid the oversaturation of nutrients.

SUPPLEMENT VITAMINS AND TRACE ELEMENTS

With vitamins, trace elements and minerals, the AquariumActiv range keeps animals and plants healthy – for all-round aquarium care.

MAINTAIN AQUATIC PLANTS

Our high-quality fertilizers support healthy and vigorous plant growth – it's almost like they're out in the wild.

CONTROL ALGAE

The OASE anti-algae product fights blue and green algae particularly effectively and delivers long-term results.

LessStress Water Conditioner

- Dechlorinator
- Removes harmful substances from tap water, such as chlorine
- Reduces stress for fish thanks to a special vitamin complex
- Actively protects the filter bacteria as well as the mucous membranes of fish
- Available size: 100 ml, 250 ml, 500 ml, 1 l, 5 l

DOSAGE AND FREQUENCY

25 ml per 100 l of tap water.

2.5 ml per 10-l bucket.

When refilling, adding fish and changing the water.

AquaStable Water Optimizer

- Stabilises pH and carbonate hardness
- Neutralises contamination caused by ammonia and nitrite
- Provides fish-friendly water
- Contains calcium to create the optimal conditions for crabs and shrimps to form shells
- Available size: 50 g, 100 g, 500 g

DOSAGE AND FREQUENCY

5 g per 100 l of aquarium water.

Add fortnightly directly into the aquarium.

ADD BACTERIA

KickstartFilter Start Bacteria Tablets

- Ideal for getting aquariums going faster
- Microorganisms activate the substrate and filter
- Can also be used when adding more fish
- Available size: Box of 3 tablets

DOSAGE AND FREQUENCY

Upon start-up: 1 tablet per 100 l of water (approximately 26°C).
When changing the water: same dosage.

KickBoost Clearwater Bacteria

- One-off treatment with concentrated, living purifying bacteria
- Works to combat substances that are toxic to fish, such as ammonia and nitrite
- Removes food residue, plant residue and detritus to keep the water clear
- Available size: 1 vial

DOSAGE AND FREQUENCY

Shake and add it all to the aquarium water. One vial is sufficient for up to 200 l of aquarium water. It should be added once a month.

WaterBalance Boost Bacteria

- Contains denitrifiers to reduce high concentrations of nitrate in the water
- Fewer water changes are required
- Prevents unwanted algae growth
- Available size: 100 ml, 250 ml, 500 ml

DOSAGE AND FREQUENCY

10 ml per 100 l of water.

Upon start-up: 20 ml per 100 l of water per week for 3 weeks.

BoostMix Clearwater Bacteria*

- Ensures biological self-cleaning and effective substrate cleaning
- Removes food residue, plant residue and detritus
- Makes aquariums easier to clean
- Ensures clear and healthy water
- Available size: 100 g, 250 g

* Do not use in combination with blue and green algae remover.

DOSAGE AND FREQUENCY

For new set-ups: 10 g per 100 l of water (approx. 26°C).

For long-term care: 5 g per 100 l of water (twice a month or with each water change).

QuickfilterAction Phosphate Remover

- Ready-to-use mesh bags for phosphate reduction
- Emergency relief and controlled sustained release in one
- Does not cloud or colour the water
- Free from heavy metals
- Available size: 60 g, 150 g, 300 g

DOSAGE AND FREQUENCY

Rinse the mesh bag under the tap and place it in the filter. Replace after 2 to 6 weeks, depending on the level of phosphate in the aquarium water.

1 mesh bag (60 g) per 100 l of aquarium water;

1 mesh bag (150 g) per 250 l of aquarium water;

2 mesh bags (of 150 g) per 500 l of aquarium water.

FilterAction Nitrate Remover

- Can be placed directly in the filter thanks to the ready-to-use mesh bag
- Natural, long-lasting nitrate reduction
- Increases the carbonate hardness and fully degrades
- Fewer water changes and therefore less stress for the fish
- Available size: 60 g, 120 g

DOSAGE AND FREQUENCY

Place the mesh bag in the filter. Depending on the content of nitrate and volume of water, nitrate remover will fully degrade over time. Replace every 6 months.

AquaElements

Vitamins and trace elements

- Contains essential macro-nutrients and trace elements
- For lively fish and healthy plants
- Combats signs of deficiency in all aquarium inhabitants and plants
- Available size: 100 ml, 250 ml, 500 ml

DOSAGE AND FREQUENCY

10 ml per 120 l of aquarium water.
Add directly to the aquarium each week.

DOSING MADE EASY

Measuring aids and dosage recommendations make it easier to care for the aquarium.

PlantGrow Iron Fertilizer

- High-quality iron (II) complex fertiliser
- Nutrients for healthy, vigorous plant growth
- Prevents signs of deficiency
- Can be used in combination with the PlantGrow weekly and daily fertiliser
- Available size: 100 ml, 250 ml, 500 ml

DOSAGE AND FREQUENCY

10 ml per 100 l of aquarium water. Add directly to the aquarium.
Optimal nutrient supply: use fortnightly in combination with the daily fertiliser.
Weekly use is recommended if no daily fertiliser is used.

PlantGrow Weekly Fertilizer

- Provides optimal basic care
- Creates the ideal conditions for nutrient absorption
- Rich and intense plant colour
- Available size: 100 ml, 250 ml, 500 ml

DOSAGE AND FREQUENCY

10 ml per 100 l of aquarium water.
Add directly to the aquarium each week.

PlantGrow Daily Fertilizer

- Provides the daily amount of nutrients that are not stable over the long term
- Highly concentrated and phosphate-free
- Can be used in combination with the PlantGrow slow-release iron and weekly fertilisers
- Available size: 100 ml, 250 ml, 500 ml

DOSAGE AND FREQUENCY

5 ml per 100 l of aquarium water.
Add directly to the aquarium daily.

SOSGrow Quick Fertilizer Tablet

- For acute nutrient deficiency
- Takes effect within 24 hours
- Ensures rich and vibrant leaf colours
- Available size: Box of 10 tablets, box of 20 tablets

DOSAGE AND FREQUENCY

If necessary, place in the substrate near the plant that you would like to give a boost to. Use 1–2 fertiliser tablets depending on the size of the plant.

CONTROL ALGAE

Blue and Green Algae Remover*

- Fast help with heavy algae growth
- Prevents algae from photosynthesising
- Will clear up your aquarium
- Available size: 100 ml, 250 ml, 500 ml

* Do not use in combination with BoostMix ClearWater bacteria.

**Use biocidal products with care. Always read the labels and product information before use.

DOSAGE AND FREQUENCY**

In the early stages of algae development:

10 ml per 100 l of aquarium water.

If necessary, every 3 weeks or each time the water is changed.

Care without
compromise.
With OASE.

ORGANIX[®]

FISH FOOD

ALASKA'S PURE POWER OF NATURE

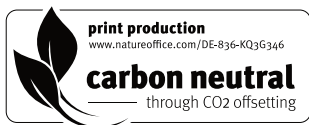

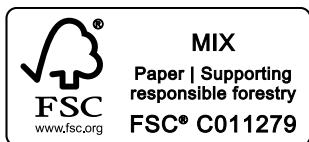

The all-round premium range for aquarists

OASE ORGANIX is one of the highest-quality fish foods in the world – rich in natural ingredients and essential nutrients. All ingredients are harvested considerately and sustainably off the coast of Alaska and are free from artificial additives. With ORGANIX, you feed your fish the pure power of nature.

- Natural ingredients, sustainably harvested
- Rich in essential and integrated nutrients
- For lively fish and optimal water quality
- Can be combined to your liking to form a varied menu
